

REPORT ON VISIT TO NANDINI MILK DIARY: UDUPI

A visit to Milk dairy at Udupi on 4th November 2025 along with 85 students of Final year. We reported to unit by 11am in the morning, where they assigned an executive engineer named Mr Manoj to explain the procedure adapted in their plant. They were collecting milk from different parts of Udupi and in the plant they undergo different methods of pasteurisation of milk. He also took a brief class regarding different processes of milk which helped the students to understand in detail. He also explained regarding different types of milk based on fat content and its packing.
