WORLD TUBERCULOSIS DAY

Subject: Report on celebration of World Tuberculosis Day.

Date Of Activity: 19TH March 2024.

Timing: 02:30PM To 4:30PM.

Department Involved: Department Of Materia Medica and Therapeutics, AHMC.

Activity Leader: Dr. Rabiya Bashri.

Faculty Co-Coordinator: Dr. Sasitharan S., Dr. Keertiraj Patil.

Guest Speakers:

□ Dr. Manu Bhat, Associate Professor, Department of FMT, AHMC. Attendees:
Students of 1ST, 4TH B.H.M.S. & Interns.

I am writing to provide a comprehensive report on the recent departmental activity on occasion of World Tuberculosis Day, which took place on 19TH March 2024 at Seminar Hall, AHMC. As Professor and H.O.D. of Department of Homoeopathic Materia Medica, I had the privilege of organising this informative event, and I would like to share key insights and observations.

Overview:

The seminar covered a wide range of topics related to Tuberculosis. Renowned expert in the field of Homoeopathy; Dr. Manu Bhat presented his views, shared valuable experiences and engaged in interactive sessions with the attendees. A skit on Tuberculosis & Homoeopathy was presented animatedly by Students of 1ST B.H.M.S.

Presentations and Speakers:

Notable speakers included Dr. Manu Bhat, who delivered compelling presentations on Tuberculosis and its diagnosis & management including importance of nutrition and diet, lifestyle changes to cope up with Tuberculosis and Homoeopathic Management of Tuberculosis. The diversity of perspectives and expertise contributed to a well-rounded understanding of the subject matter.

Interactive Sessions:

The seminar also featured interactive sessions, allowing participants to gain practical insights into lifestyle modification, importance of nutrition, diet and exercise, approach to the patient in homoeopathic case taking and treatment. These sessions were particularly beneficial in enhancing the participant's knowledge and skills.

Networking Opportunities:

One of the highlights of the seminar was the networking opportunities it provided. Attendees had the chance to connect with peers, exchange ideas, and establish valuable professional contacts. The collaborative atmosphere fostered meaningful discussions and potential future collaborations.

Emerging Trends and Innovations:

The seminar shed light on emerging trends and innovations in the medical field, with a focus on importance of nutrition and various homoeopathic medicines which can provide practical guide for budding homoeopaths. This information was crucial for staying abreast of the latest developments in the health sector.

Feedback and Suggestions:

Post-seminar feedback indicates that participants found the seminar highly beneficial. However, hands-on workshops on Tuberculosis Management can be considered for future seminars to further enhance the overall experience.

Conclusion:

In conclusion, the World Tuberculosis Day was a well-organized and enlightening event that significantly contributed to the professional development of all participants. I would like to express gratitude to the organizers, speakers, and fellow attendees for their valuable contributions to the success of the seminar.
